Imagining…GSC
2013-2018

Mission

The Good Samaritan College of Nursing and Health Science is a specialized college of higher education committed to educating men and women for careers in nursing and other health related fields in the greater Cincinnati region. The College is a private Catholic institution that fulfills its mission by addressing the needs of our students with differing interests, plans, and expectations.

Vision

To be the regional leader in providing nursing and health care education in a unique Catholic and hospital-based college environment.

College Goals

- Emphasize a Christian value orientation to life.
- Create a caring environment that allows each individual to feel personally satisfied and reach his/her fullest potential.
- Promote academic excellence.
- Embrace professional standards of conduct as a lifelong value.
- Serve the community.
- Embody the traditions and reputation of the College.
- Foster an ongoing commitment to learning and to this educational institution.

Strategic Planning Themes

Four themes stand out through the materials related to program development, resources, technology, and learning.

Imagining GSC for:

Program development that enriches and strengthens academics of the college.

- Offer an Associate of Science in Health Science degree. – 2013
- Offer a Bachelor of Science in Nursing degree. – 2013
- Determine the capability and opportunity to offer a Graduate degree in nursing and/or other allied health sciences. – 2017

Resource management to advance the mission, vision, goals, and strategic priorities of the college.

- Update the Campus/Facility Master Plan to ensure resources are aligned with future programing. - 2014
- Inhabit new facilities or remodel current facilities. - 2017
- Intensify faculty development for higher degree programs.- 2015
- Plan leadership succession.

Learning experience to produce talented, knowledgeable graduates.

- Develop a scholars program and associated scholarship opportunity to attract new students. - 2016
- Develop an honors program that leads to association with Sigma Theta Tau honorary association. - 2016
- Adapt to the ever-changing requirement of the Department of Education, Higher Learning Commission, and up-coming Higher Education Act.

Technology support that strengthens academics and student learning.

- Expand campus availability of student internal and external access to institutional resources.
- Develop hybrid and online delivery models. - 2016
- Leverage infrastructure assets to take advantage of cutting edge technology pervasive through TriHealth.
