

General Information & Services

Student Parking

STUDENT PARKING

Street Parking is the only parking available during day-shift hours (6:00 AM – 3:00 PM) Monday – Friday. Plan to arrive early to find street parking close to the college. Car-pooling and public transportation are encouraged. All students must provide a copy of their vehicle registration(s) to the hospital Security Department.

Students are not permitted to park in the Visitor Garage. Violators will be ticketed and towed at their expense. Students are not permitted to park any place on campus, due to limited parking for employees, patients and visitors, with the two exceptions listed below.

Exception #1: Students who have evening classes are allowed to park in the Employee Garage after 3:00 PM. Students may access the Employee Garage by swiping their Student Identification Badge.

Exception #2: A limited number of student spaces are available on campus. A lottery is used to determine which students receive these spaces. A fee is charged on a semester basis. The hospital assumes no responsibility for damage to vehicles parked in TriHealth parking facilities.
