### POLICY TITLE: ACADEMIC ACCOMMODATIONS

**Purpose of Policy:**
To respect students' rights and responsibilities in accordance with the Americans with Disabilities Act of 1990 (ADA) as amended by the ADA Amendment Act of 2008 and Section 504 of the Rehabilitation Act of 1973. Any qualified student with a disability may request an accommodation to ensure that the academic program does not discriminate against or have the effect of discriminating against that student.

**Scope:**
- ☒ Faculty
- ☒ Staff
- ☒ Student
- □ Visitor
- □ Other

**Committee(s) Responsible:**
Student Services

**Location of Policy:**

**Next Review Date:**
01/2019

**Date Policy Effective:**
07/01/2018

**Final President Approval:**
07/01/2018

**Policy Number:**
CON-100

GSC is respectful of students' rights and responsibilities in accordance with the Americans with Disabilities Act of 1990 (ADA) as amended by the ADA Amendment Act of 2008 and Section 504 of the Rehabilitation Act of 1973. Any qualified student with a disability may request an accommodation to ensure that the academic program does not discriminate against or have the effect of discriminating against that student. The disability/disorder must not prohibit the student from meeting the course outcomes. To determine eligibility for academic accommodations, the College requires current and relevant documentation from a qualified professional with expertise in the area of the diagnosed disability/disorder that establishes a disability and its impact on the student and confirms the need for each accommodation requested.

The designated Title IX/504 Coordinator for the College is:

Kyla Jones, Student Success and Title IX/504 Coordinator  
Good Samaritan College of Nursing & Health Science  
375 Dixmyth Avenue  
Cincinnati, OH 45220

Office: 8th floor, 872.2  
Email: kyla.jones@email.gscollege.edu  
kyla_jones@trihealth.com  
Phone: 513-862-3504  
Fax: 513-487-5688
Definitions

Accommodations

An accommodation is a modification of policies, practices, or procedures that will allow the student with a disability/disorder to meet the requirements of the course or program. Examples of available accommodations may include, but are not necessarily limited to, auxiliary aids and modifications to courses, programs, services, activities, or facilities. The College will take all steps necessary to ensure that its students are not excluded from participation in, denied the benefits of, or otherwise subjected to discrimination in any program or activity because of a lack of auxiliary aids and services for students with impaired sensory, manual, or speaking skills. The College, however, cannot honor requests for accommodations that would fundamentally alter academic requirements that are essential to the instruction being pursued by a student or are directly related to any licensing requirements, cause undue hardship on the College, or jeopardize the health or safety of others.

It is the responsibility of the student to make his or her disability status and/or need for an accommodation known to the College, following the process outlined below. Once notified, the College will work with the student to identify potential accommodations and assess the practicality and effectiveness of each potential accommodation. Determinations regarding accommodations will be made on a case-by-case basis. An accommodation must be tailored to address the nature of the disability and the needs of the individual within the context of the requirements of the program of study. If there are two or more possible accommodations, and one costs more or is more burdensome than the other, the College may choose the less expensive or less burdensome accommodation that is still effective.

Disability

Generally, a person with a disability is one who has a physical or mental impairment that substantially limits one or more major life activities. Major life activities include, but are not limited to, caring for oneself, performing manual tasks, seeing, hearing, eating, sleeping, walking, standing, lifting, bending, speaking, breathing, learning, reading, concentrating, thinking, communicating, and working.

Private Room

A private room is a designated area free from any other student and with very minimal distractions. One anticipated distraction is that of a proctor for the testing.

Quiet Room

A quiet room is a designated area with minimal distractions and no more than four other students assigned to that space.
Proctor

A staff/faculty member assigned to oversee integrity of testing and answer questions by the students regarding the test.

PROCEDURE

1. A student wishing to request an accommodation under this policy must notify the Title IX/504 Coordinator as soon as possible after the need for an accommodation becomes apparent. In order to begin the process of assessing potential accommodations, it is preferable that students notify and meet with the Title IX/504 Coordinator prior to registration for classes to discuss his or her needs and recommendations.

2. A student previously diagnosed with a disability/disorder and who used academic accommodations at a previous educational setting, must request that a copy of his/her test results and recommendations be sent by the diagnosing evaluator to the Title IX/504 Coordinator.

3. If the student is seeking an accommodation for a learning disability/disorder and has not been previously diagnosed with such a disability/disorder, the student will be provided with a Learning Disability/Disorder Verification Form (J:\College Information & Forms\College Operations) and instructed to seek diagnostic evaluation. The Title IX/504 Coordinator does not establish the existence of a disability/disorder diagnosis or prescribe recommendations for permanent accommodations. A limited temporary plan may be recommended to allow time for diagnostic evaluation. Referral contacts may be suggested but the student may choose the qualified diagnostic evaluator.

4. Students with physical or mental disabilities other than learning disabilities must request that documentation be sent to the Title IX/504 Coordinator from the student’s diagnosing professional.

5. The documentation required may include diagnostic test results, interpretations of test results, evaluation and assessments of the student demonstrating the need for accommodations due to a disability/disorder that substantially limits one or more major life activities; and information regarding the history of the disability/disorder and its impact on the applicant’s ability to function. At a minimum, the documentation must be sufficient to apprise the College that the student currently has a disability that excludes the student from participation in, denies the student the benefits of, or otherwise subjects the student to discrimination in any program or activity. As a matter of convenience, attached to this policy is a form a student may use to obtain the appropriate documentation from a qualified diagnosing evaluator.

6. The Title IX/504 Coordinator will review the documentation and any requested accommodations and will discuss any alternative recommended accommodations with the student. The determination as to whether a requested accommodation will be granted lies with the Title IX/504 Coordinator. A minimum of 7 business days is required to implement the accommodations.
7. Temporary accommodations may be developed and implemented by the Title IX/504 Coordinator only if the student has provided documentation of accommodations provided at another institution of higher learning or an Individual Education Plan (IEP) prior to attending GSC. If the documentation is not current within the last two years, temporary accommodations will only be developed and provided if the student has an appointment in the near future with a psychologist for updated evaluation and recommendations. Temporary accommodations are only awarded once and only for one semester.

8. The Title IX/504 Coordinator will then notify the student of the determination and each Department Chair/Dean, Instructor, and/or Current Advisor, if appropriate, of any accommodations to be implemented.

9. The student must contact the Department Chair/Dean and professor responsible for the course regarding the accommodations as soon as the determination is made. If the need for an accommodation is known prior to the beginning of a semester, the student must contact the Department Chair/Dean and professor responsible for the course regarding the accommodations at the beginning of the semester. A minimum of 7 business days is required to implement accommodations.

10. Students who receive accommodations must meet with the Title IX/504 Coordinator at the end of each semester to discuss their progress.

11. If a student feels that his or her accommodations are not being met, he/she must notify the Title IX/504 Coordinator immediately.

12. If a student has an academic accommodation in place and chooses not to use the accommodation(s), the student is required to meet with the Title IX/504 Coordinator and sign a waiver stating that he or she does not wish to use the accommodations.

13. Except when necessary to further the purpose of this policy or where otherwise required by law, documentation of a student’s disability will be kept confidential and will not be shared with other administrators or faculty members without the student’s consent according to FERPA.

14. Students not satisfied with the result of this process should consult the policy titled “Complaint/Grievance Procedure-Disability.” This procedure is listed on the College website (www.gscollege.edu).
GSC is respectful of students’ rights and responsibilities in accordance with the Americans with Disabilities Act of 1990 (ADA) as amended by the ADA Amendment Act of 2008 and Section 504 of the Rehabilitation Act of 1973. Any qualified student with a disability may request an accommodation to ensure that the academic program does not discriminate against or have the effect of discriminating against the student. The disability/disorder must not prohibit the student from meeting the course outcomes. To determine eligibility for academic accommodations, the College requires current and relevant documentation from a qualified professional with expertise in the area of the diagnosed disability/disorder that establishes a disability/disorder, its impact on the student, and confirms the need for each accommodation requested. The documentation must be sufficient to apprise the College that the student currently has a disability/disorder that excludes the student from participation in, denies the student the benefits of, or otherwise subjects the student to discrimination in any program or activity. Please complete the form as directed.
